

## LETTER OF INTENT TO JOIN CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE

It is with great pleasure that I sign on to the Children's Environmental Health Collaborative. This letter indicates the Children's Environmental Health Network's (CEHN) commitment to protect children's health and development from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, CEHN in our organizational capacity and as lead partner in the Global Children's Environmental Health Network (GCEHN), commit to our interest in collaborating around the following activities. Considering joint funding opportunities would be welcome, in order to offer needed capacity.

1. Advocate for prioritizing children's environmental health in key international forums, including through joint co-branded communication and advocacy products, when feasible;
2. Contribute research on the specific impacts of climate change and environmental degradation on children's health and sharing guidance, tools and best-practices to protect children from these impacts;
3. Provide technical assistance, expertise and technical resources on children's environmental health;
4. Participate in joint convenings and promote coherent approaches to protecting children environmental health.

We agree to have our logo displayed amongst the list of partners on the Collaborative's website and working with UNICEF to advance children's health, development and well-being.

Yours Sincerely,

A handwritten signature in black ink that reads "Nsedu Obot Witherspoon".
