## **LETTER OF INTENT TO JOIN CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE**

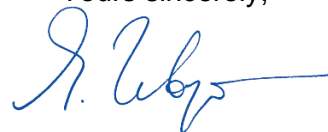

It is with great pleasure that I sign on to the Children's Environmental Health Collaborative. This letter indicates the Group on Earth Observations' (GEO) commitment to protect children's health and development from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, GEO commits to the following activities:

1. Advocate for prioritizing children's environmental health in key international forums, including through joint co-branded communication and advocacy products, when feasible;
2. Contribute research on the specific impacts of climate change and environmental degradation on children's health and sharing guidance, tools and best-practices to protect children from these impacts;
3. Provide technical assistance, expertise, and technical resources on children's environmental health; and
4. Participate in joint convenings and promote coherent approaches to protecting children's environmental health.

GEO agrees to have our logo displayed amongst the list of partners on the Collaborative's website and working with UNICEF to advance children's health, development, and well-being.

Yours sincerely,

**Yana Gevorgyan  
Director of Secretariat**
