## LETTER OF INTENT TO JOIN CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE

It is with great pleasure that I sign on to the Children's Environmental Health Collaborative. This letter indicates Ewha Womans University College of Medicine's commitment to protect children's health and development from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, we commit to the following activities.

1. Advocate for prioritizing children's environmental health by contributing to the development of the guidelines and advocacy materials based on our knowledge sharing and research;
2. Contribute research on the specific impacts of climate change and environmental degradation on children's health and sharing guidance, tools and best-practices to protect children from these impacts;
3. Provide policy recommendations with evidence-based research on children's environmental health;
4. Participate in joint convenings and promote coherent approaches to protecting children's environmental health.

We agree to have our logo displayed amongst the list of partners on the Collaborative's website and working with UNICEF to advance children's health, development and well-being.

Yours sincerely,

Eunhee Ha  
Dean, Professor, MD, Ph.D.
