

**LETTER OF INTENT TO JOIN
CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE**

January 21, 2024

It is with great pleasure that I sign on to the Children's Environmental Health Collaborative. This letter indicates The Global Consortium on Climate and Health Education's commitment to protect children's health and development from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, we commit to the following activities:

1. Prioritize global children's environmental health in the curriculum and training of health professionals.
2. Advocate for prioritizing children's environmental health in key international forums, including through joint co-branded communication and advocacy products, when feasible;
3. Contribute research on the specific impacts of climate change and environmental degradation on children's health and sharing guidance, tools and best-practices to protect children from these impacts;
4. Provide technical assistance, expertise, and technical resources on children's environmental health; and
5. Participate in joint convenings and promote coherent approaches to protecting children's environmental health.

We agree to have our logo displayed amongst the list of partners on the Collaborative's website and working with UNICEF to advance children's health, development, and well-being.

Yours sincerely,

Cecilia Sorensen, MD
Director, GCCHE
