Outg.No. 1165 of Feb 09, 2024

**LETTER OF INTENT TO JOIN
CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE**

It is with great pleasure that I sign on to the Children's Environmental Health Collaborative. This letter indicates International Higher School of Medicine's commitment to protect children's health and development from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, we commit to the following activities:

1. Advocate for prioritizing children's environmental health in key international forums, including through joint co-branded communication and advocacy products, when feasible;
2. Contribute research on the specific impacts of climate change and environmental degradation on children's health and sharing guidance, tools and best-practices to protect children from these impacts;
3. Participate in joint convenings and promote coherent approaches to protecting children environmental health.

We agree to have our logo displayed amongst the list of partners on the Collaborative's website and working with UNICEF to advance children's health, development and well-being.

Yours sincerely,

Rector

S.M. Akhunbaev
