### LETTER OF INTENT TO JOIN CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE

It is with great pleasure that we sign on to the Children's Environmental Health Collaborative. This letter indicates Institute for Health Metrics and Evaluation's commitment to protect children's health and development from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, we commit to the following activities.

- Contribute research on the specific impacts of climate change and environmental degradation on children's health and sharing guidance, tools and best-practices to protect children from these impacts;
- Provide technical expertise on children's environmental health; and
- Participate in joint convenings and promote coherent approaches to protecting children environmental health.

We agree to have our logo displayed amongst the list of partners on the Collaborative's website and to collaboration with UNICEF to advance children's health, development, and well-being.

Kind regards,

**Christopher J.L. Murray, M.D., D.Phil.**  
Director, Institute for Health Metrics and Evaluation  
Chair and Professor, Department of Health Metrics Sciences  
University of Washington
