

**LETTER OF INTENT TO JOIN
CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE**

I am pleased to sign on to the Children's Environmental Health Collaborative. This letter indicates Little Things Matter's commitment to protect children's health and development from the impacts of toxic chemicals and environmental degradation.

As part of our contribution to the Collaborative, we commit to:

1. Produce social media posts, videos and other tools to translate science and make it accessible to the broader public;
2. Advocate for prioritizing children's environmental health in key international forums, including through joint co-branded communication and advocacy products, when feasible;
3. Contribute research on the specific impacts of toxic chemicals on children's health and sharing guidance, tools and best-practices to protect children from these impacts;
4. Provide technical assistance, expertise and technical resources on children's environmental health;
5. Participate in joint convenings and promote coherent approaches to protecting children environmental health.

We agree to have our logo displayed amongst the list of partners on the Collaborative's website and working with UNICEF to advance children's health, development, and well-being.

Best regards,

Bruce P. Lanphear, MD, MPH
