No. 0951 DGH.DIC

**LETTER OF INTENT TO JOIN  
CHILDREN'S ENVIRONMENTAL HEALTH GLOBAL COLLABORATIVE**

It is with great pleasure that I sign on to the Children's Environmental Health (CEH) Collaborative. This letter indicates the Ministry of Health's commitment to protect children from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, we commit to the following activities:

1. Advocate for prioritizing children's environmental health in key international forums, including through joint co-branded communication and advocacy products, when feasible;
2. Contribute research on the specific impacts of climate change and environmental degradation on children's health and sharing guidance, tools and best-practices to protect children from these impacts;
3. Provide technical assistance, expertise and technical resources on children's environmental health;
4. Participate in joint convenings and promote coherent approaches to protecting children's environmental health.
5. Monitor the situation of children's environmental health through surveys and assessments where feasible in collaboration with partner support.
6. Support health worker training and raising public awareness about environmental health risks and how to mitigate and protect against them.

We agree to have our logo displayed amongst the list of partners on the Collaborative's website and updated brochure, and working with UNICEF at country, regional and global levels to advance children's health, development, and well-being.

Yours sincerely, 

**Prof. CHHEANG RA**  
**Minister of Health**
