LETTER OF INTENT TO JOIN CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE

It is with great pleasure that I sign on to the Children's Environmental Health Collaborative. This letter indicates Global Communities' commitment to protect children's health and development from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, we commit to the following activities:

1. Advocate for prioritizing children's environmental health in key international forums, including through joint co-branded communication and advocacy products, when feasible.
2. Contribute expertise and lessons learnt on the specific impacts of climate change and environmental degradation on children's health.
3. Share tools, technical resources and best-practices to protect children from these impacts.
4. Participate in joint convenings and promote coherent approaches to protecting children's environmental health.
5. Integrate children's environmental health issues into proposals, projects, research and communications materials, when feasible.

We agree to have our logo displayed amongst the list of partners on the Collaborative's website and working with UNICEF to advance children's health, development, and well-being.

Warm regards,

Carrie Hessler Radelet
President & CEO
