**LETTER OF INTENT TO JOIN  
CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE**

It is with great pleasure that I sign on to the Children's Environmental Health Collaborative. This letter indicates the Stanford Woods Institute for the Environment's commitment to protect children's health and development from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, we commit to the following activities:

1. Contribute research to advance children's environmental health with a specific focus on identifying sources of lead poisoning and sharing guidance, tools and best-practices to protect children from lead poisoning;
2. Provide technical assistance, expertise, and technical resources on children's environmental health; and
3. Participate in joint convenings and promote coherent approaches to protecting children's environmental health.

We agree to have our name displayed in text amongst the list of partners on the Collaborative's website and working with UNICEF to advance children's health, development, and well-being.

Sincerely,

Christopher Field

Perry L. McCarty Director  
Melvin and Joan Lane Professor for Interdisciplinary Environmental Studies
