Subject: Letter of Intent to Join as a Partner of the Children's Environmental Health Collaborative and the Partnership for Lead-Free Future

Dear Madam/Sir,

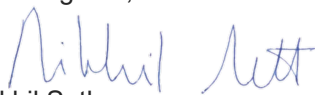

On behalf of the United Nations Institute for Training and Research (UNITAR), it is with great pleasure that we sign on to the Children's Environmental Health Collaborative, including the Partnership for Lead-Free Future, as a partner.

As a partner to the Collaborative, we commit to the following activities.

1. Advocate for prioritizing children's environmental health in key international forums, including through joint co-branded communication and advocacy products, when feasible;
2. Contribute research on the specific impacts of the unsound management of chemicals and waste on children's health, and on how to protect children from these impacts;
3. Provide analytical support and technical assistance to governments on children's environmental health, when feasible;
4. Participate in joint convenings and promote coherent approaches to protecting children environmental health.

We agree to have our logo displayed on the Collaborative's website, and working with UNICEF to advance children's health, development and well-being.

Best regards,

Nikhil Seth
UN Assistant Secretary-General
Executive Director, UNITAR
